EVENT RATES

Button Party	Cost of buttons as listed above + \$25
--------------	--

Button Booth (nonprofits) Donations - supply costs = proceeds for you! No upfront cost.

Events require an indoor space and a large, sturdy table. We do the rest!

For orders of more than 1,000 buttons, contact us for a quote. Additional shapes and sizes are available for orders of 500 buttons or more. Have a unique idea? Run it by us! We love trying new things. Rush charges may apply for overnight orders. All of our supplies and presses are made in the USA. Local delivery is free.

Questions? Just want to chat? Contact us at meadowlarkgraphics@gmail.com or 785-383-0946

There's a good reason why pinback buttons have been in style since 1896: these highly-visible, inexpensive gadgets are one of the best ways to help you deliver your message.

Political buttons have been used in the United States since Washington's supporters sported them at his inauguration in 1789. They were simple coat buttons printed with slogans and attached with string.

The first design for a pinback button in the United States was patented in 1896 and featured the first use of a pinback and film to cover the button.

Today, some of the earliest buttons can be worth thousands. A rare button picturing the 1924 Democratic presidential candidates, originally worth pennies, recently sold at auction for \$20,000.

One of the most successful buttons of all time was the "Have a Nice Day" smiley face designed by Harvey Ball in 1963. By 1972, an estimated 50 million smiley face buttons were sold.

About Meadowlark Graphics

There are a lot of places to get buttons these days, but we're betting you'll value a few things about Meadowlark Graphics:

- We're a locally run, family business. Our factory is our dining room table in Topeka, Kansas.
- You get professional graphic design. You're not on your own to figure out the best way to deliver your message. We can create a design that makes your business or cause look as top-notch as you are.
- All of our supplies and presses are made in the USA. Supporting fair labor practices and American jobs is important to us.
- We're fast. Being local has perks. Need buttons overnight? Call us.
- You can shake up your size. Standard buttons at 2.25 inches are super, but would you prefer a handy 1-inch button to better appeal to youth? Or perhaps an epically huge 3.5 inch button to make your message visible from space? We've got you covered.
- We can come to you. Kids love button birthday parties where they can design and create their own buttons or pocket mirrors as souvenirs. For nonprofits, we'll come to your fundraiser for free, help your attendees make buttons and collect donations for you. All we need is a large, stable, indoor table, we'll do the rest.
